Belangstelling in Gesondheidswetenskap onderrig/ Interest in Health Sciences Education

I am presently working as a Clinical Tutor in the Clinical Skills Centre, as well as Department of Education Fund administrator in Dean's Division. Self-directed and experiential learning is my passion. I have a particular interest in the dynamics of the application of theory in practice. I believe that theory and practice must be integrated to achieve deep learning.

Ek is tans werksaam in Kliniese Vaardigheids Sentrum as kliniese tutor, asook in Dekaaans afdeling as Departement van Onderwys Fonds administratrise. Self gerigte en eksperiensiële leer is my passie. Die dinamika wat met die toepassing van teorie in die praktyk verband hou intereseer my in besonder. Ek glo dat integrasie van teorie en praktyk noodsaaklik is om diep leer te bewerkstellig.
